If the first half of the season is anything to go by the second half will be well worth watching with teams capable of beating each other on any given Saturday. Last season Prestatyn Town were unbeaten at this stage of the season a feat no clubs have been able to achieve this time due to the competitive nature of the league. There are five Huws Gray Alliance teams still competing in the JD Welsh Cup and with holders Caernarfon Town knocked out of the Huws Gray cup there will be a different name on the trophy come the end of the season

PYRAMID REVAMP

The FAW's review and proposals for the directly affiliated leagues has certainly thrown up a lot of conversation and questions, some that still have to be answered and understood but as far as The Huws Gray Alliance management committee is concerned they welcome the new structure which can only be a benefit for a stronger and sustainable game in Wales. A point highlighted by the number of clubs showing a desire to be promoted, fifteen at present and still counting with the deadline date at the end of December. All clubs in tier two from next season MUST have the FAW tier two ground certificate and these fifteen are showing with their desire to be promoted that they wish to be included in the new structure
